

◇ Intermediate Dog Class \$99

In this class we will be adding lots of distractions and encouraging your dog to work more reliably in unpredictable situations.

Dogs going into this class must be at least 6 months old and have completed puppy or basic class. They must be able to do a 1-minute sit-stay and a 3-minute down-stay without distractions, as well as possessing the ability to walk at heel (also without distractions) without requiring constant corrections.

We will be using a variety of distractions in this class, including Guinea pigs, rabbits, toys, hats, costumes, a wheelchair, a cane, food and lots of different sounds.

If you're not sure if this is the class for you and your dog, please talk to Becky Davis.

◇ Advanced Dog Class \$ 99

Your dog will not be perfectly trained in a matter of eight weeks. Training your canine friend is an ongoing practice that takes a lot of hard work and effort from both you and your dog. In this advanced class your dog will be taught how to ignore distractions, become reliable off lead, and look to you for instruction.

This curriculum consists of performing with distractions, learning how to stay, heel off lead, stand, and down. Many skills necessary for grooming, examinations, and manners will be taught.

In this class we also introduce students to agility obstacles including: jumps, teeter-totter, tire jump, A-frame, pause table and chute tunnel.

◇ **Puppy Kindergarten Class \$79**

This class is designed to give you a head start on problems that may come up as your puppy matures from a cute fuzz-ball to a wild thing with teeth. We will help you deal with his changing behavior and fast-growing body. You will gain insight into what goes through your puppy's mind and influences his behavior.

The class will be a learning experience for you and your puppy, establishing a basis for future training.

Topics to be covered:

- ❑ Housebreaking
- ❑ Crate Training
- ❑ Learning to walk politely on a lead
- ❑ How to address chewing and biting
- ❑ Grooming: Nail trimming, brushing coat and teeth
- ❑ Barking

◇ **Beginning Puppy Class \$99**

In this preliminary training class, you and your puppy will learn more about stopping bad habits, using positive reinforcement, and establishing a set of rules for your puppy. But this class is definitely not all work and no play. While you learn, you'll develop an exceptional bond with your puppy and you might even have a little fun!

This curriculum of training involves house training, leaving a puppy at home by itself, socializing your puppy, establishing house manners, and solving the problems that come along with raising a canine friend. More specifically, your puppy will learn how to sit, heel on lead, play, and come when called. Other topics we will approach are health care, good nutrition for your growing puppy, and grooming suggestions.

Things to remember for any dog class:

- ❑ Do not feed your dog right before coming to class
- ❑ Potty your dog before leaving home
- ❑ Clean up after your dog if he or she has to go before returning home

◇ **Basic Class \$99**

In this level of training we recommend only adolescent and adult dogs. New habits will be taught as well as old inappropriate habits being broken. Of course, what's a training class worth if you and your dog don't enjoy it? Just like the puppy class, you and your dog will learn how to train and have fun at the same time. This class will strengthen the existing bond between you and your dog.

The curriculum of this class includes problem solving which is always useful, and even more house manners for your dog. Your canine will learn how to sit, down, wait for you, heel on lead, and much more. Information on grooming and health care will also be provided.
